

Idea Tracker

Capture and Manage Ideas Generated in the Workplace

Idea Tracker is a user-friendly and cost-effective tool for capturing suggestions for workplace improvements and managing the process of review, approval, and implementation. Our cloud-based platform allows you to gather ideas across your organization, prioritize and plan for implementation, receive feedback from stakeholders, and track the status of all ideas in real time. With Idea Tracker you can easily share information and document the efforts of your staff to solve workplace problems and increase efficiency. It offers a comprehensive solution for transforming ideas into concrete improvements.

- Manage employee suggestions and recommendations systematically
- Reduce the time from idea to implementation — see results in days instead of weeks or months
- Encourage staff involvement in improving the workplace and enhancing customer or patient care
- Document financial and service impacts realized through implementing employee-generated ideas
- Increase employee satisfaction
- Eliminate hard-to-track paper-based processes and centralize data in one secure location

How It Works

Key Features

- Accept employee suggestions electronically with user-friendly webforms
- Send thank-you notes and idea acknowledgments automatically
- Sort suggestions by location, functional area, staff assignment
- Establish implementation plans, assign team members, and delegate tasks
- Send notifications with integrated email
- Generate status reports and graphical analyses
- Control access to data through secure permissioning
- Incorporate existing processes with customized features

At Performance Logic, we focus exclusively on the healthcare industry, bringing more than 15 years of experience implementing cloud-based solutions for performance and process improvement. Our client services team is dedicated to ensuring successful implementation and providing ongoing support. Our solutions can be customized to meet your needs, without breaking your budget. Call us at 888-847-1705 for more information.
