

RC Rounding Center

Performance Logic's Rounding Center is a powerful yet easy-to-use tool for efficiently managing many types of rounds and ensuring issues are resolved quickly. Rounding Center can help you transform EOC inspections, facility audits, and staff knowledge surveys from labor-intensive efforts with limited follow-up to efficient, results-oriented processes that save time and drive superior outcomes.

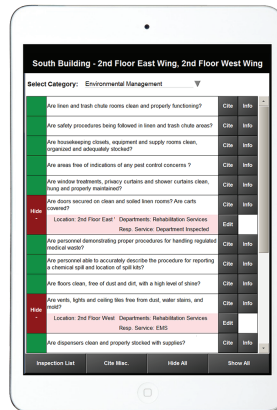

- Eliminate paper processes
- Enhance accountability and communication
- Identify chronic problem areas
- Resolve deficiencies more quickly
- Track progress in real time
- Store data securely in the cloud

How It Works

Use Rounding Center to...

- Create audits and surveys using built-in templates
- Enter findings into a user-friendly interface through a mobile device or workstation
- Send notifications and follow-up reminders with integrated email
- Create action plans and schedule target completion dates
- Sort issues by location, staff assignment, time frame, and more
- Generate scheduled and ad-hoc reports and graphical analyses
- Easily make updates to your facility layout as needed due to expansion or reorganization

At Performance Logic, we focus exclusively on the healthcare industry, bringing more than fifteen years of experience implementing cloud-based solutions for performance improvement. Our customer-focused support team is dedicated to ensuring successful implementation and providing our clients with ongoing assistance. Performance Logic solutions can be customized to meet your needs and our affordable subscription fees won't break your budget. Call us at 888-407-1705 for more information.
